Our Services for You

Whether you need professionals for temporary projects or long-term collaborations, you can rely on SuisseCo for comprehensive support. From the initial search to successful contract completion, we accompany you throughout the entire process. Our expertise enables us to find tailored resources and provide you with qualified professionals via our onshore and nearshore models. Trust our professional guidance to efficiently and accurately meet your staffing needs.

We will invest time with you. With individualised and personal support, we can support you on-site with your projects from consulting and planning to implementation. We guarantee prompt and versatile solutions of the highest quality.

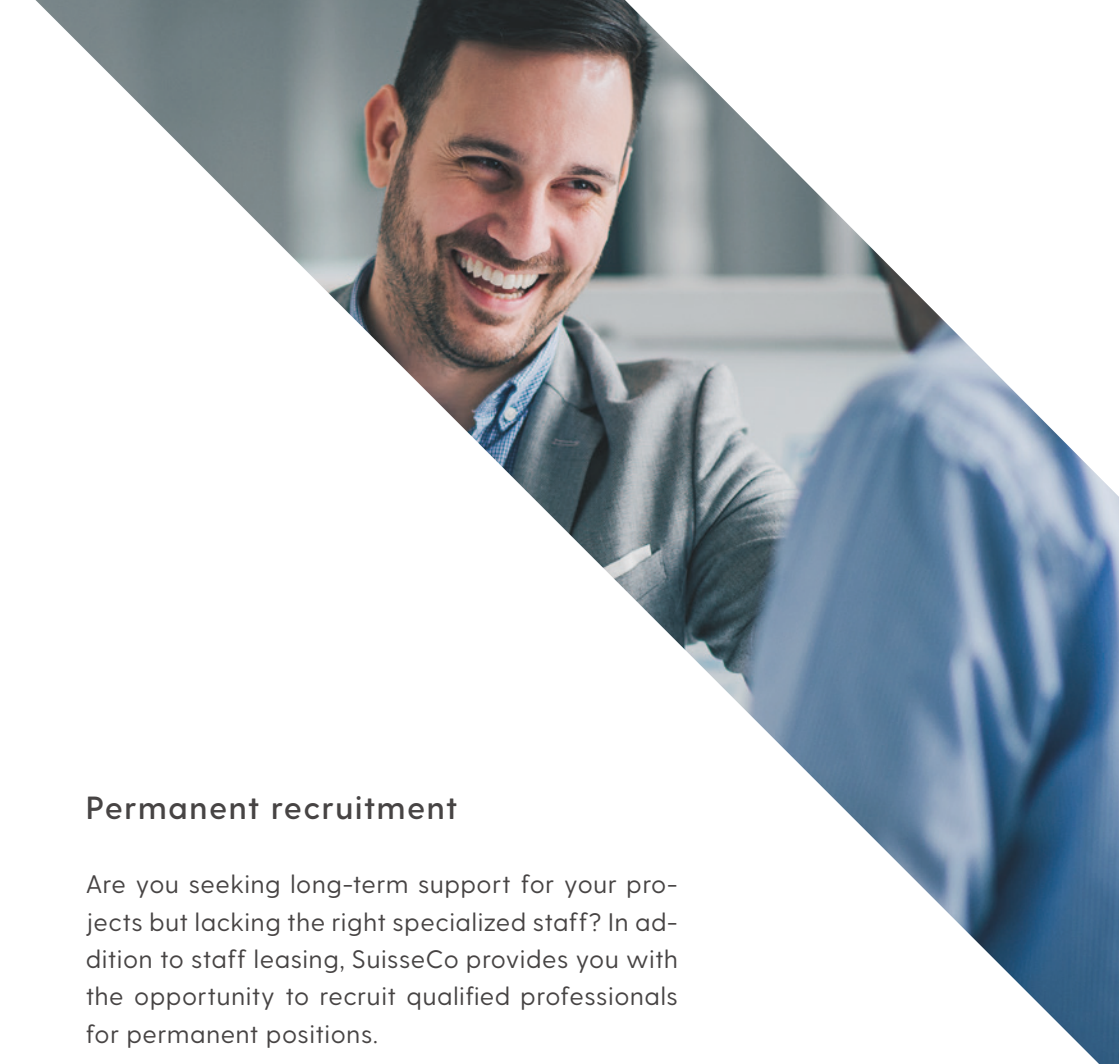

Gain success with the right specialists

Contracting including Payrolling

You retain flexibility thanks to our staffing services. SuisseCo can provide you with specialists for temporary project assignments. If your company has projects that require special expertise we ensure that you have access to the necessary experts who will drive the success of your project.

SuisseCo provides you with the right experts tailored to your needs. With flexible contract options, you decide how you want to work. The advantages of short-term personnel recruitment with SuisseCo are clear. You maintain full budget control thanks to maximum planning reliability, allowing you to focus more on your core business and daily operations.

Permanent recruitment

Are you seeking long-term support for your projects but lacking the right specialized staff? In addition to staff leasing, SuisseCo provides you with the opportunity to recruit qualified professionals for permanent positions.

We will present you with qualified candidates who meet your requirements, as well as possessing social skills in line with your company culture and team composition. Through our sustainably built network of experts, we have access to candidates who are not actively looking for work. With SuisseCo you can bring your vision to fruition!

Nearshore Resources

SuisseCo serves as your trusted technology partner, helping you transform software visions into reality. From initial concept to final deployment, we find nearshore resources characterized by innovation, efficiency, and quality. With a dedicated talent pool of agile developers, architects, and project managers, we're equipped to meet your project requirements with precision and agility.

Our expertise lies in developing and implementing highly efficient solutions at the critical intersection of business and technology, ensuring your projects are seamlessly executed and deliver measurable results. Partner with us to scale your technology needs with the power of nearshore resources.

We look forward to hearing from you and to a successful cooperation.

SuisseCo represents team spirit, responsibility, transparency, quality and innovation. With a large pool of experts from across Europe, whether onshore or nearshore, we will find the right resources for you that align perfectly with your expectations and project requirements!
